Technical Specifications

- Advanced dual-microphone noise-canceling technology filters out most of the background noise to provide smooth call conditions with security.
- Neodymium magnet speaker delivers fantastic and powerful sound quality.
- DSP (Digital Signal Processing), echo cancellation and enhanced voice extraction make sure clear voice even in a very noisy environment.
- Stereo sound (Epic 512), and dynamic EQ optimize the sound quality for calls, music and multimedia.
- Convenient call controls including call answer/end, mute, volume + and volume-(Call answer/end only works on Skype for business).
- Lightweight memory steel headband, rotatable ear cap and soft leatherette ear cushions provide comfortable use on a daily basis.
- Plug and play, easy to set up and fast to deploy.
- Busy light indicator shows the working status and prevents unnecessary interruptions-(Busy light only works on Skype for Business）.
- ADDASOUND's headsets follow the international Noisy Safety Standards and help create a safe environment.
- Headset bag included for travel or home storage.

Addasound UC Headsets are Compatible with Most Leading UC Platforms
